The Crown Estate welcomes approaches from companies of good standing with adequate financial and technical resources wishing to lay oil and gas pipelines on seabed that it manages. Applications are managed on a bilateral and case by case basis. Any party wishing to lay such a pipeline will have to satisfy The Crown Estate that it has a legitimate licence from the Oil and Gas Authority and has, or is capable of obtaining any other relevant statutory consents that may apply. Commercial rates and our standard forms of agreement are, under normal circumstance, published on our website.
